

YOU'RE INVITED...

MAK FIRES Huddle

March 8, 2023 | 1330-1430

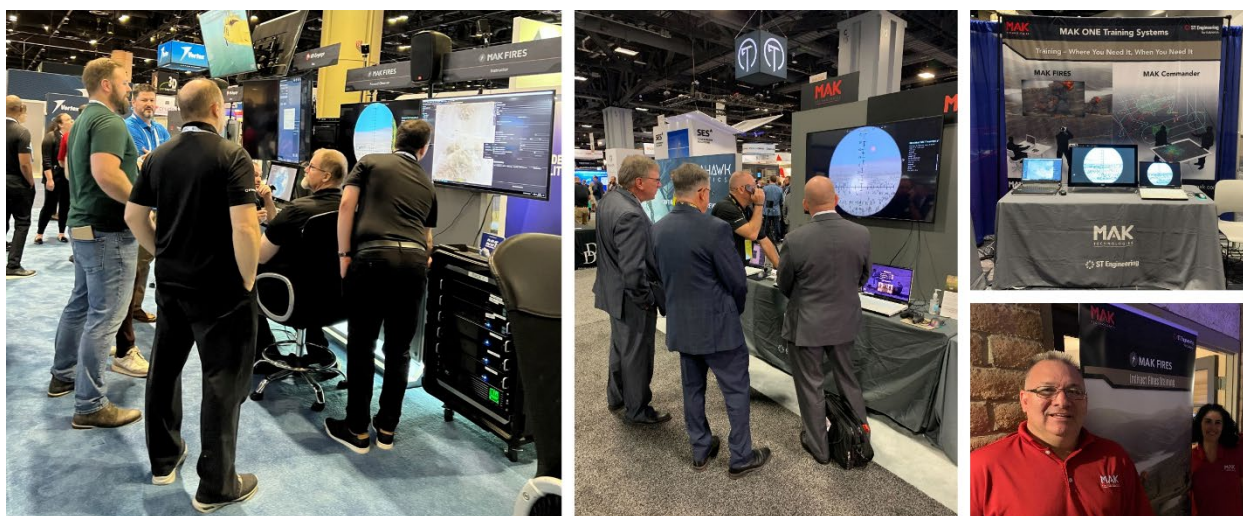

Reserve your spot at the MAK FIRES Huddle to learn how MAK FIRES can deliver better Forward Observer training results.

In this Microsoft Teams webinar on March 8 from 1330-1430, you'll learn:

- How MAK FIRES prepares all Military Occupational Specialties (MOS) for combat through its training environment focused on Call For Fire (CFF) fundamentals. An observer who becomes proficient on CFF techniques and procedures with MAK FIRES will be able to get on-target with fewer adjusting rounds during live fire training.
- What sets MAK FIRES apart from other training systems. With its voice-activated simulated Fire Direction Center (FDC) for individual practice and its use-from-anywhere portability, MAK FIRES stands out from the crowd. (And did you know you can train on all missions in the 13F Gunnery tables 4 and 5 right out of the box?)
- How MAK Technologies has established partnerships with National Guard Associations across the country. MAK is committed to furthering the success of National Guard Association efforts by delivering needed training to soldiers.
- Bonus: See how you can train locally for your next deployment by planning and rehearsing your next mission with MAK COMMANDER and get a sneak peek of the MAK Recruiting tool.

Register for the MAK FIRES Huddle today!

MAK FIRES is coming to a National Guard Association Conference near you...

We pride ourselves on our partnerships with National Guard Associations around the country. We prioritize state conferences and are honored to spend time with these groups! Over the next few months, here's where you can find us:

- National Guard Adjutants General Association of the United States (AGAUS) Winter – February 10-11 in Arlington, VA
- National Guard Association of Arkansas (NGAA) State Conference – February 23-25 in Jonesboro, AR
- National Guard Association of Tennessee (NGATN) State Conference – February 23-25 in Murfreesboro, TN
- National Guard Association of Massachusetts (NGAMA) State Conference – March 4, 2023 in Lowell, MA
- North Carolina National Guard Association (NCNGA) State Conference – March 10-11 in Winston Salem, NC
- National Guard Association of Utah (NGAUT) State Conference – March 11-12 in West Jordan, UT
- National Guard Association of Texas (NGAT) State Conference – March 23-26 in Irving, TX

PS - don't see your state association conference on the list? Drop us a line at info@mak.com and we'll set up a special showing just for you.

MAK FIRES brings the heat!

Follow doctrine. Master Forward Observer fundamentals. Train better with MAK FIRES – wherever you are!

Train Forward Observer Skills with MAK FIRES. Train Military Decision Making Skills with MAK COMMANDER. All built on the MAK ONE Synthetic Environment.

MAK FIRES is built on MAK ONE, the same technology used to build MAK COMMANDER and many other training systems used around the world. Watch this video demonstrate a battalion-level training exercise that incorporates MAK FIRES alongside several other MAK ONE-based simulators.

Make an impact. Donate now to help veterans in need get service dogs that could save their lives.

MAK has committed to raising \$50,000 by 2024 for two highly trained service dogs – one for a veteran in Massachusetts, and another for a veteran in Florida, reflecting the locations of our two corporate headquarters. MAK is covering all administrative and service fees, so 100% of your donations will go directly toward the cost of providing a trained and ready service dog to a veteran in need.

Event alert! If you're feeling moved by this campaign and want to do even more, we're hosting a Golf Tournament Fundraiser at Topgolf in Orlando on June 22, 2023 – consider becoming a player or an event sponsor! [Learn more here.](#)
