

November 2025

# What's Up **MAK**

## THE I/ITSEC SPECIAL

### EDITOR'S NOTE

Morgan here with the November edition of our What's Up MAK newsletter, and this one's all about I/ITSEC. We're serving up something special this year: a full-course demo experience across two booths, #1221 and #1123. From tactical naval/air ops to AI for constructive simulation to our FPV Drone Simulator, the MAK ONE Menu has something for every simulation appetite. And you can't miss the MAK User Group on Tuesday, December 2 -- details below! Grab your (virtual) fork and dig in. Bon appetit!

## Experience the Bold Flavors of MAK ONE at I/ITSEC 2025

### MAIN COURSES

#### **MAK ONE Integrated Demos**

Find our main course integrated demos at MAK Booth #1221, including...

**MAK ONE Air and Naval Ops:** Step into a full spectrum battlespace with VR-Forces simulating a multi-domain operation—from subsurface to space—integrating air, cyber, and drone assets in one dynamic scenario.

**MAK ONE Tactical Data Link:** Go beyond Link 16 with CogSim's TDL suite, integrating VR-Forces into live and synthetic Link 16, ATAK, AIS, ARS, and Network Enabled Weapons (NEW) for a robust C2 picture and LVC simulation inject.

**MAK ONE Ground Ops:** Experience close-combat training in dense forests with drones, motion-based driver simulations, and sensor operator role players, all simulated with VR-Forces and VR-Engage for a robust collective training experience.

### CHEF'S SPECIALS

#### **Solutions Built on MAK ONE**

Explore MAK ONE-powered innovations at MAK Booth #1123!

Generate scenarios with natural language using NICO AI for Constructive Simulation; train using real FPV gear with our immersive FPV Drone Simulator; detect and defeat drones with ST Engineering's AGIL® C-UAS; wargame invasions and analyze outcomes with VR-Forces and MARS AAR; accelerate insights with Cervus' Forge analytics; and sharpen targeting skills with portable, classroom-ready MAK FIRES.

## À LA CARTE

### MAK ONE Core Ingredients

At MAK Booth #1221, our expert engineers are ready to serve up MAK ONE's core ingredients—VR-Forces, VR-Link, VR-Vantage, VR-Engage, VR-TheWorld, MAK RTI, VR-Exchange, and MAK Data Logger—and show you how to customize and extend them to meet your simulation goals. Expect the freshest releases with powerful new capabilities!

New on the menu: RFView® for MAK ONE, developed with ISL. Catch the demo at MAK booth #1221 or ISL booth #433, and save the date for ISL's paper presentation on the technology powering RFView for MAK ONE: Wednesday, Dec 3 at 1430 in Room 320B of the Orange County Convention Center.

## THE SECRET SAUCE

### Interoperability Built into MAK ONE

What's the secret ingredient that makes MAK ONE so versatile? Interoperability. MAK ONE simplifies simulation networking with free tools, built-in WAN support, and decades of standards leadership. Interoperability is the sauce that makes everything just work. (And yes, you can see all this live at I/ITSEC.)

**How we're serving up interoperability in MAK ONE...**

## CHEF'S TABLE

### MAK User Group

*Tuesday, December 2  
8:30-11:30 AM  
Rosen Centre Hotel, Salon 3/4  
Orlando, Florida*

You're invited to pull up a seat at the Chef's Table to hear how MAK users around the world are cooking up success with MAK ONE. From training innovations to simulation breakthroughs, the MAK User Group will serve up real-world applications and fresh perspectives.

Topics include:

- Building Common Simulation Software for the Australian Army with MAK ONE
- The IDEA Scenario AI Database and Integration into VR-Forces
- Royal Canadian Air Force DSOC Use of MAK ONE in Coalition Level LVC-T/DST
- MAK Master Gunnery Engagement Editor for the Apache Gunnery Trainer

**No registration needed. We hope to see you there!**

The logo for MAK ONE, with "MAK" in a large, bold, red sans-serif font and "ONE" in a smaller, grey sans-serif font to its right. A thin red horizontal line is positioned above the "ONE" text.

We can't wait to show you MAK ONE 2025 at I/ITSEC!

Stop by booth #1221 or #1123 anytime, or request a private demo or meeting with the MAK team.
